

# VMware CERTIFICATION PATHWAY

## Data Center Virtualization

Data Center Virtualization certifications are designed to gauge your level of skill designing, installing, and managing VMware vSphere environments in a real world environment.

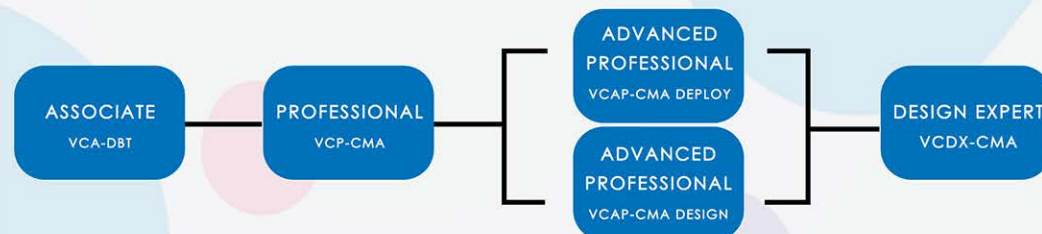

## Network Virtualization

Network Virtualization certifications are designed to gauge your level of skill designing, implementing, and managing a VMware NSX environment.

## Cloud Management and Automation

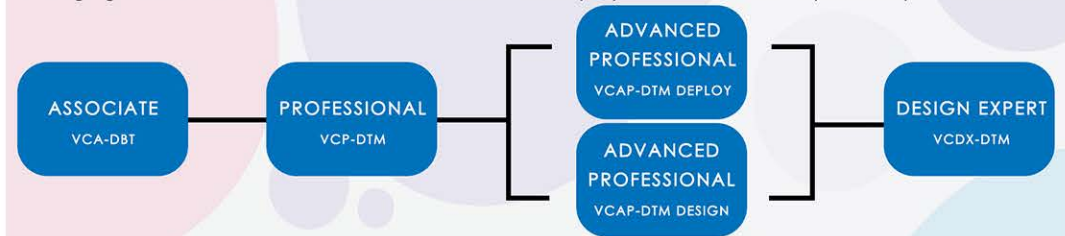

Cloud Management and Automation certifications are designed to gauge your level of skill installing, configuring, and optimizing VMware vRealize for your cloud solution.

# VMware CERTIFICATION PATHWAY

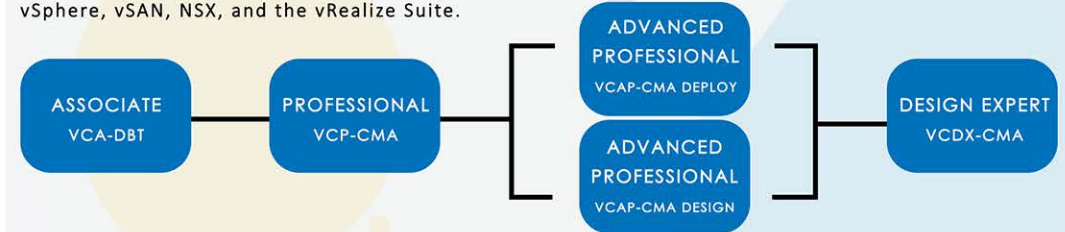

## Desktop and Mobility

Desktop and Mobility certifications are designed to gauge your level of skill designing, installing, and managing a VMware Horizon with View environment deployed on a VMware vSphere implementation.

## Digital Business Transformation

Earning this certification validates your understanding of virtualization concepts and how they drive an enterprise's digital agenda. It proves that you are familiar with the VMware products and technologies that support VMware Cloud Foundation and Cross-Cloud Architecture solutions including vSphere, vSAN, NSX, and the vRealize Suite.

## Digital Workspace

Digital Workspace certification is designed to gauge your skill configuring, deploying, managing, maintaining, optimizing, and troubleshooting VMware Workspace ONE and related solutions.

# VMware CERTIFICATION PATHWAY

## POPULAR CERTIFICATIONS

### VCP-DCV 2019

The VCP-DCV 2019 certification validates candidate skills to implement, manage, and troubleshoot a vSphere V6.7 infrastructure, using best practices to provide a powerful, flexible, and secure foundation for business agility that can accelerate the transformation to cloud computing.

### VCP-NV 2019

The VCP-NV 2019 certification proves you can transform the economics of network and security operations for your company. VCP-NV 2019 certification validates your ability to install, configure, and administer NSX virtual networking implementations, regardless of the underlying physical architecture.

### VCP-CMA 2019

The CMA certification validates your ability to install, configure and administer a VMware vRealize environment, used to automate key processes within your Data Center in a repeatable, scalable way that leads to efficiency and improved productivity. These skills enable you to simplify and standardize the more complex day to day activities, increasing your credibility and value within the organization.

### VCP-DW 2019

The VCP-DW 2019 certification validates that a badge earner can configure, deploy, manage, maintain, optimize, and perform basic troubleshooting of VMware Workspace ONE and related solutions, as well as properly identify and differentiate any needed supporting products and components.

### VCP-DTM 2019

VMware Desktop and Mobility certifications are designed to gauge your level of skill designing, installing, and managing a VMware Horizon with View environment deployed on a VMware vSphere implementation. The VCP-DTM 2019 certification validates a candidate's skills in performing in-depth configuration and management of VMware Horizon 7.5 environments. This industry leading certification proves that VCP-DTM 2019 earners can securely deliver personalized virtual desktops, applications, and online services to end-users.
